Portfolio: taskmate-sajid-react.netlify.app

Career Objective

Motivated and detail-oriented final-year BCA student with hands-on experience in backend and full-stack development

Technical Skills

- Languages: Java, JavaScript, HTML, CSS, Python
- Frameworks: Spring Boot, React, Tailwind CSS
- Database: MySQL
- Tools: Git, Postman, VS Code, IntelliJ IDEA
- Other: DSA, PDF generation (OpenPDF), Excel integration (Apache POI), Hosting (VPS/Shared)

Education

Bachelor of Computer Applications (BCA)

Manipal University Jaipur — Expected 2026

Projects

- Smart Electricity Billing System (Live Client Project)
- Tech Stack: Java, Spring Boot, React, MySQL, OpenPDF, Apache POI
- Developed and deployed a full-stack electricity billing application for a real client.
- Built REST APIs in Spring Boot for user/admin functionality and billing workflows.
- Implemented Excel data parsing and monthly PDF invoice generation.
- Designed role-based dashboards for secure user/admin access.
- Hosted the application on VPS and continue to maintain it.
- GitHub: Backend | Frontend

Experience

- Freelance Java Backend Developer (Remote) | Jan 2025 - Present
- Delivered a complete electricity billing system from scratch.
- Managed end-to-end development including backend logic, API integration, and deployment.
- Collaborated directly with the client to gather requirements and deliver milestones.
- Ensured performance, maintainability, and security of the live system.

Additional Projects

- Task Management App: React-based to-do/task manager with CRUD operations and local storage.
- Word Counter Tool: React app to count words and characters in real time.

Achievements

- Successfully delivered a real client project during undergraduate studies.
- Self-taught Spring Boot, MySQL, deployment, and system design fundamentals.
- Currently learning Docker and AWS for production-level backend workflows.

Core Strengths

- Strong backend problem-solving skills
- Ownership of development lifecycle
- Fast learner, self-driven
- Effective communication with technical and non-technical stakeholders

Declaration

I hereby declare that the above information is true to the best of my knowledge.
