Career Objective

As a passionate and dedicated final-year BCA student, I aim to secure a challenging position in a growth-oriented organization where I can apply my practical knowledge of Java, Spring Boot, and full-stack development. With hands-on experience delivering a real-time electricity billing system for a client, I am eager to contribute to impactful software projects while continuously learning new technologies. My goal is to become a reliable backend developer who adds value through clean code, scalable solutions, and strong ownership of responsibilities.

Technical Skills

- **Languages:** Java, JavaScript, HTML, CSS, Python

- **Frameworks:** Spring Boot, React, Tailwind CSS

- **Database:** MySQL

- **Tools**: Git, Postman, VS Code, IntelliJ IDEA

- **Others**:DSA, PDF generation (OpenPDF), Excel integration (Apache POI), Hosting & Deployment (VPS/Shared Hosting)

Education

Bachelor of Computer Applications (BCA) | 2023 – 2026
Manipal University Jaipur

Projects

[Smart Electricity Billing System (Client Project – Live)](#)
Tech Stack: Spring Boot, React, Java, MySQL, OpenPDF, HTML/CSS, Apache POI
GitHub: [Backend](#), [Frontend](#)

- Developed a full-stack electricity billing application for a real client.

- Parsed Excel files and generated monthly PDF bills using Spring Boot.

- Designed secure user/admin dashboards with role-based access.

- Set up database schema in MySQL and hosted the app on a VPS.

- Currently maintaining and supporting the application.

Freelance / Internship Experience

Freelance Java Developer

Jan 2025 – Present

- Built and deployed a complete billing system from scratch.
- Communicated with clients and delivered project milestones independently.
- Ensured security, stability, and maintainability of the live application.

Achievements

- Delivered a client project independently during college.

- Self-learned Spring Boot, MySQL, and deployment workflows.
- Continuously learning Java system design, Docker, and AWS.

Strengths

- Strong problem-solving mindset
- Ownership of end-to-end development
- Fast learner and committed to quality
- Excellent communication with non-tech clients

Declaration

I hereby declare that the information mentioned above is true to the best of my knowledge.
